***AIRCRAFT INNER TUBE***

# **RIGHT TUBE, RIGHT TIRE, RIGHT SIZED, RIGHT CHOICE**

Inner tube failure can potentially lead to tire failure, which means your tire is only as good as the tube inside. MICHELIN® AIRSTOP® “right-sized” tubes are designed to provide an outstanding fit between the tube and the contour of the tire casing cavity. This optimal tube and tire fit reduces the possibility of creases, folds and air loss, resulting in a more reliable, longer lasting tire and tube combination
